First come first served...

Chris Green's 'Traitor' Decoys are without doubt the most accurate, true to life decoys by far. Brilliantly hand painted by the man himself who invented them. Each of the decoys listed below comes as a complete kit ready to assemble, as seen in Chris's now famous Pigeon Shooting DVDs.

① Pigeon 'Traitor' Diving Floater

Designed with wings swept back to accurately represent a Pigeon losing height. A deadly decoy that really pulls the birds - Ideal for medium to strong winds, You can see them featured in the DVDs... "Pigeons really hate people using this decoy"

② Pigeon 'Traitor' Gliding Floater

This decoy is designed with outstretched wings for optimum lift and maximum visibility, Easily mistaken for the real thing,- Don't shoot it! Great in light to medium winds.

NEW - Pigeon 'Traitor' Landing Floater !

Complete with big fantail this decoy really comes alive with a slight breeze. (If you've seen the films you'll know what we mean). A superb 'Dancing' Decoy this one!

③ Pigeon 'Traitor' Landing Decoy

Excellent for stubbles, rape or any short crop. Comes with short ground peg which presents this decoy approximately 12" above ground level.

④ Pigeon 'Traitor' Landing Flapper

The same decoy as no.3 above, but with flapping wings! The ingeniously simple mechanism allows wings to flap up to 30 yards away using the pull cord provided. Comes complete with its own 30" glass fibre ground peg.

⑤a Pigeon 'Traitor' Ground Decoy - Feeding

This decoy incorporates the most sensitive moving device available anywhere. The slightest breeze will get this decoy 'walking' and 'feeding' in the most realistic way. Beautifully hand painted, finely tuned and thoroughly field tested, adjustable ground peg Included. Available in Head Down Feeding style **5a** or Head up Sentry style **5b**

⑤b Pigeon 'Traitor' Ground Decoy - Sentry
